

KNOCKING FROM INSIDE

I used to listen to things I heard

Searching for meaning in this world / Walking dusty roads

Knocking on doors, looking for codes

In libraries and bars

I didn't understand that we don't need to live our lives

In search of reason and control

**We're knocking on that same old door, don't know what we're looking for,
but I know we're knocking from the inside**

**Oh it ain't worth all the tears we cry, no point in waiting for the tide, cause
we're knocking from the inside**

I travelled east and I travelled west

Looking for answers, I got no rest / And I read the holy books,

Even Richard Dawkins

Perhaps you saw me bow down / on my knees and pray

For revelation and inspiration

And it (you) made (make) me believe

**We're knocking on that same old door, don't know what we're looking for,
but I know we're knocking from the inside**

**Oh it ain't worth all the tears we cry, no point in waiting for the tide, cause
we're knocking from the inside**

From inside x 4
