

PRESS RELEASE – CRASH NOMADA – EN RISPA I EVIGHETEN – RELEASE DATE APRIL 29th 2022

CRASH NOMADA

EN RISPA I EVIGHETEN

Swedish folk punks Crash Nomada are back with their third full length album *En rispa i evigheten*. The album is released on the legendary record label Birdnest Records. Heavy, raw and danceable folk punk saturated with Swedish folk music.

En rispa i evigheten reflects the band's wide musical span, where they move seamlessly between d-beat hardcore, calm ballads, folk metal and 80s-scented folk rock, but above all land in their danceable and pulsating folk punk. The music is fired up by virtuoso violin and accordion, a pulsating rhythm section and raw organic electric guitar.

The lyrics on the album are often intertwined where words and phrases recur as mantras in different songs. We are offered hopeful esoteric wisdom in songs such as Fällor, Ett steg närmare and Lyser upp allt. Music that unites and purifies - fellowship and catharsis. Other songs like Neoluddit, Ragnarök and Hata din identitet are full of civilization critique, but always with warmth and humor.

The songs were recorded live in the studio to capture the directness and nerve. The album is produced by Crash Nomada and Per Granberg (Charta 77) and mixed by Göran Frid.

Crash Nomada has gained attention all over the world for their unique hybrid of punk rock and different kinds of folk music. The band celebrated their 10th anniversary last year. They have a reputation for wild and intense live performances and has toured extensively all over Europe.
